ECOLAB® EQUIPMENT CLEANING

Extend Your Oil Life and Oil Quality With Safe and Easy Daily Cleaning Tools and Procedures

Proper fryer cleaning and maintenance are key to improving food quality, extending equipment life and improving restaurant profits. Ecolab has developed an exciting new tool system to make fryer cleaning easier and safer.

ECOLAB HI-TEMP TOOLS (for Fryers) were designed to reach all fryer surfaces including difficult areas (between coils and in corners) and are approved for use on french fry and protein fryers.

Fryer Maintenance Plan to Extend Oil Life

Daily filtering procedure using the new Ecolab Hi-Temp Tools and KAY® Fryer Cleanser

+

Quarterly boil-out procedure using KAY® CHARGE™ Heavy Duty Degreaser

=

UP TO A 60% extension in oil life

- Improve product quality
- Extend oil life from 3 or 4 days to 5 or 6 days and beyond
- No carbon buildup
- Energy consumption reduced when fryers are free of carbon
- Less labour spent on completing boil-outs & fryer cleaning
- Cost savings through extended oil left

ECOLAB® Hi-Temp Tools

Cleaning hard-to-reach areas of kitchen equipment has never been easier and safer. The multi-brush heads of the tool are easily removed for cleaning, replacement and handheld use. The longer, ergonomic handle with nonslip hand-stop and grip ball helps keep the user a safe distance from hot surfaces and liquids. The tools are heat-resistant to 350°F and are designed for use on fryers, ovens and other kitchen equipment.

Hi-Temp Tool Starter Kit
(1 Handle, 1 Detail Brush, 1 Pad Holder, 1 Pad)
Order Code: 10017871

Hi-Temp Handle
Order Code: 92212761

Hi-Temp Double-Sided Brush
Order Code: 92212764

Hi-Temp Pad Holder
Order Code: 92212762

Hi-Temp Pad
(10 Pads)
Order Code: 10017829

Hi-Temp Detail Brush
Order Code: 92212765

ECOLAB® Hi-Temp Pad Holder and Pad

- Fitted pad works to remove build-up and is easily removed for replacement
- Flat surface makes cleaning easier, while the arched design maximizes tool contact on surfaces

ECOLAB® Hi-Temp Detail Brush

- Designed to reach tight areas in fryers (gas or electric, LOV or traditional)
- Thin profile allows head to fit in between heating tubes and coils where soils accumulate

ECOLAB® Hi-Temp Double-Sided Brush

- Wedge-shaped head fits well into corners and bristles help reach into crevices
- Top mounted bristles, combined with the angled head, help access hard-to-reach areas
