PACKAGING

Case width:	34	**Case length:**	55
Case height:	55		

DETAILS

These containers are characterized by their high impact resistance, their transparency that allows the contents to be clearly seen, and their resistance to temperatures of between -40º and +130º. Ideal for use in microwaves and specially designed for the storage of food in refrigerators, freezers and cold rooms. They can be stacked on top of one another. This range of gastronorm containers is complemented by perforated bases and transparent polycarbonate lids. Compatible with POLINORM coloured lids (Pujadas patent), which convert polycarbonate containers into ideal containers for transporting food.
