37 3/10-millimeter Life Collection square melamine serving tray

The Life Collection square serving tray by Pujadas offers a winning combination of sophistication and strength. This tray is made of melamine, which is a synthetic resin that becomes hardened and formed after heating. It looks like porcelain, but is more durable and lighter weight, so it's a better choice for busy foodservice operations. This heat-resistant, corrosion-resistant tray has a temperature range of -20°C to 70°C. The neutral white color creates a clean and crisp look, while the wide, square rim beautifully frames your delicious food items. This elegant tray is an excellent choice for catering operations, restaurants, hotels and more.
