Life Collection rectangular plate 495 x 272 mm melamine in white

The Life Collection rectangular plate by Pujadas offers a winning combination of sophistication and strength. This plate is made of melamine, which is a synthetic resin that becomes hardened and formed after heating. It looks like porcelain, but is more durable and lightweight, so it's a better choice for busy foodservice operations. This heat- and corrosion-resistant plate has a temperature range of -20°C to 70°C (-4°F to 158°F), and the nontoxic, odorless construction is SGS-certified for food contact. The neutral white color creates a bright and fresh look, while the wide, square rim frames your delicious food items beautifully. This elegant plate is an excellent choice for catering operations, restaurants, hotels and more.
