Life Collection rectangular serving tray 39 x 15 cm melamine in white

The Life Collection rectangular serving tray by Pujadas combines strength and sophistication into one versatile tray. It's made of melamine, which is a synthetic resin that becomes hardened and formed after heating. It looks like porcelain, but is more durable and lighter weight, making this tray a better choice for busy foodservice operations. This heat- and corrosion-resistant tray has a temperature range of -20°C to 70°C (-4°F to 158°F) and the nontoxic, odorless construction is SGS-certified for food contact. The neutral white color creates a bright and fresh look, while the long, narrow shape provides an elegant look and plenty of room for your delicious food items.
