# Life Collection plate bowl 38 centimeter melamine in white

The Life Collection plate bowl by Pujadas offers incomparable versatility. It's made of melamine, which is a synthetic resin that becomes hardened and formed after heating. It looks like porcelain, but is lighter and more durable, so it's a better choice for busy foodservice operations. This heat- and corrosion-resistant plate bowl has a temperature range of -20°C to 70°C (-4°F to 158°F), and the nontoxic, odorless construction is SGS-certified for food contact. The neutral white color creates a bright and fresh look, while the wide rim frames your delicious food items beautifully. This elegant plate bowl features a depth of 9 centimeters for an impressive capacity that any catering operation, restaurant, hotel and similar establishments will appreciate.

## MODEL INFORMATION

| | |
|---|---|
| EAN 13 | 8421661220996 |
| (W) Width (CM) | 38 |
| (D) Depth (CM) | 38 |
| (H) Height (CM) | 9 |
| (DI) Diameter (CM) | 38 |
