Sharing Collection round serving bowl 16 centimeter melamine in white

Stand out from the crowd with this Sharing Collection round serving bowl by Pujadas, which features a narrow base and wide, rounded sides. It's made of melamine, which is a synthetic resin that becomes hardened and formed after heating. This bowl looks like porcelain, but is more durable and lighter weight, so it's a better choice for busy foodservice operations. It's heat- and corrosion-resistant, has a temperature range of -20°C to 70°C (-4°F to 158°F) and features a nontoxic, odorless construction that is SGS-certified for food contact. This white 16-centimeter serving bowl offers a light, fresh appearance and is ideal for upscale catering operations, restaurants, hotels and more.
