Sharing Collection 5-compartment serving tray 38 centimeter melamine in white

Satisfy any crowd with this Sharing Collection serving tray by Pujadas, which features five versatile compartments. It's made of melamine, which is a synthetic resin that becomes hardened and formed after heating. This bowl looks like porcelain, but is more durable and lighter weight, so it's a better choice for busy foodservice operations. It's heat- and corrosion-resistant, has a temperature range of -20°C to 70°C (-4°F to 158°F) and features a nontoxic, odorless construction that is SGS-certified for food contact. This white 38-centimeter serving tray creates an elegant presentation for chips, vegetables, dips, salsa, sauces and more.
