Crock 1 liter melamine in white

Serve dips, soups, sides and more with this crock by Pujadas. When paired with the crock display stand (Pujadas item number P22158, sold separately) this crock helps you maximize vertical space and offers an engaging presentation. It's made of melamine, which is a synthetic resin that becomes hardened and formed after heating. It looks like porcelain but is more durable and lighter weight. This heat- and corrosion-resistant crock has a temperature range of -20°C to 70°C (-4°F to 158°F) and a nontoxic, odorless construction that is SGS-certified for food contact. The neutral white color creates a bright and fresh look, making this crock an excellent choice for any serving area.
