Ola Collection leaf plate 505 x 240 mm melamine in white

Wow your guests with the Ola Collection leaf plate by Pujadas, which features an elongated, sophisticated leaf shape for a one-of-a-kind presentation. Though it looks like porcelain, this plate is made of melamine, which is a synthetic resin that becomes hardened and formed after heating. The result is a durable, lightweight product that's heat- and corrosion-resistant. It's also nontoxic and odorless, SGS-certified for food contact and suitable for temperatures between -20°C and 70°C (-4°F and 158°F). The white color is bright, fresh and provides the perfect neutral background for any of your delicious creations.
