Mini round casserole pan 9 centimeter melamine in black

Streamline individual service with the mini round casserole pan by Pujadas, which allows you to cook and serve from the same versatile unit. The mini size helps improve efficiency, control portions and save valuable time. This casserole pan is made of durable, lightweight melamine, which is a synthetic resin that becomes hardened and formed after heating. It's heat- and corrosion-resistant and has a temperature range of -20°C to 70°C (-4°F to 158°F). The nontoxic, odorless construction is SGS-certified for food contact, and the black color looks like cast iron for a traditional appearance.
