Mini square casserole pan 19,5 x 10 x 5 cm melamine in black

The square casserole pan by Pujadas allows you to cook and serve from the same versatile unit, which improves efficiency, controls portions and saves valuable time. This casserole pan is made of durable, lightweight melamine, which is a synthetic resin that becomes hardened and formed after heating. It's heat- and corrosion-resistant and has a temperature range of -20°C to 70°C (-4°F to 158°F). The nontoxic, odorless construction is SGS-certified for food contact, and the black color looks like cast iron for a traditional appearance.
