Ramekin 30 millimeter melamine in white

Serve individual portions of sauces, condiments, dips and more with the ramekin by Pujadas. This ramekin is made of melamine, which is a synthetic resin that becomes hardened and formed after heating. It looks like porcelain, but it is more durable and lightweight, which makes it a better choice for busy foodservice operations. This heat- and corrosion-resistant ramekin has a temperature range of -20°C to 70°C (-4°F to 158°F), and the nontoxic, odorless construction is SGS-certified for food contact. The neutral white color creates a bright and fresh look, while the fluted design offers an elegant, traditional appearance.
